**Industrial & Construction Projects**

مؤسسة الأخوة المتميزة للمشاريع الصناعية والإنسانية

٩٦٢ ٧٧ ٥٥١ ٥٥٣٥ + H.Q Jordan - Aqaba

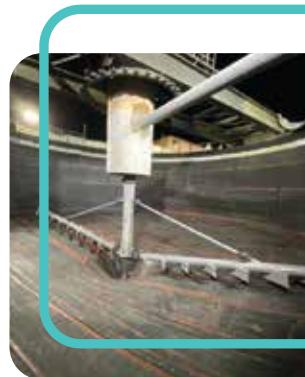

Creative Brothers Contracting Company

شركة الأخوة المبدعون للمقاولات

٢٠١ ١١٢ ١١٣ ٩٩٩ +

Address: Egypt - Giza

# Welcome To Our Company

تأسست مؤسسة الإخوة المتميزون للمشاريع الصناعية والإنسانية عام 2019 ولها الآن الفرع الرئيسي في العقبة - الأردن و تسعى الى إفتتاح عدة فروع و ممثلي داخل و خارج المملكة الأردنية الهاشمية

تعتبر مؤسسة الإخوة المتميزون للمشاريع الصناعية والإنسانية من المؤسسات الرائدة في مجال المقاولات و الصناعة و التجارة و هي متخصصة في أعمال توريد و تركيب و صيانة المرافق و المنشآت (المصانع البتروكيميائية و النفطية و مصانع الأسمدة - الموانئ - الأبنية )  
كما هو موضح في مجالات الشركة والمشاريع المنفذة

حيث تتخصص بتوريد و تركيب و تشغيل و صيانة المواد الغير معدنية كافة ( البطانة المطاطية بأنواعها و الطوب الكربوني المقاوم للأحمال و الحرارة العالية و الطوب الحراري ، الأقشطة الناقلة و المواسير البلاستيكية و غيرها )

وتم تأسيس شركة الأخوة المبدعون للمقاولات في مصر عام 2024 ، والتي ستقوم بنفس المهام  
والمشاريع المنفذة من قبل مؤسسة الأخوة المتميزون في جمهورية مصر العربية

وإنطلاقاً من النجاحات التي حققتها مؤسسة الأخوة المتميزون في تنفيذ مشاريعها المتعددة ، تم تأسيس شركة الأخوة المبدعون للمقاولات عام 2024 لتكون الامتداد الطبيعي لهذه الخبرات. حيث ستعمل الشركة الجديدة على عكس نفس الكفاءة والتميز في تنفيذ الأعمال، لتوالى تقديم نفس مستوى الجودة والخبرة الذي تميزت به المؤسسة في مشاريعها السابقة

## المؤسس : المهندس حمزة خالد إسماعيل

Distinguished Brothers for Industrial and Construction Projects Est. was established-in 2019.

It now has the main branch in Aqaba - Jordan and seeks to open several branches and representatives inside and outside the Hashemite Kingdom of Jordan, and the institution will be transformed from a sole proprietorship to a group of distinguished brothers.

The Distinguished Brothers for Industrial and Construction Projects is considered one of the leading institutions in the field of contracting, industry and trade, and it is an institution specialized in

Supply, installation and maintenance work for facilities and installations.  
(Petrochemical and Oil factories, Cement factories - Ports - Buildings)

Specialized in Supply, Installation, Operation and Maintenance of all non-metallic materials (All types of Rubber Lining, All types of Carbon Brick, All types of Anti-acid Brick, All types of Refractory Bricks, All types of Conveyer Belts, All types of Plastic Pipes)

Building on the successes achieved by Distinguished Brothers in executing multiple projects, Creative Brothers Contracting Company was established in 2024 as a natural extension of this expertise. The new company will embody the same efficiency and excellence in project execution, continuing to deliver the high standards of quality and expertise that have distinguished the institution's previous achievements.

**Founded By : Engineer Hamzeh Khaled Ismaeel**

## — Our Vision

To continue excelling and positioning ourselves as the premier choice in the Middle East

## — رسالتنا

أن نستمر بالتميز و نكون الخيار الأفضل للمقاولات العامة في الشرق الأوسط

## — Our Mission

leadership in execution of projects with highest quality and safety standards and to continue to build in better future.

## — مهمتنا

الريادة في تنفيذ المشاريع بأعلى معايير الجودة و السلامة ، و النمو المستمر لبناء مسقبل أفضل

# Our Values

قيمنا

**Commitment and confidence**

**الالتزام و الثقة**

**Teamwork**

**العمل الجماعي**

**Quality and Safety**

**الجودة و السلامة العامة**

**Focus on the customers/clients' satisfaction Operational Excellence**

**التركيز على رضا العملاء**

**Operational Excellence**

**التميز التشغيلي**

**Social responsibility**

**المسؤولية الاجتماعية**

# OUR OBJECTIVES

Continues Growth of Revenue & Profits

Continues Growth and diversity of income resources

Excellence in project implementation.

Entering into strategic partnerships with reputable companies in all contracting activities. Development and commercialization of the Establishment identity and image locally and abroad.

Attract the best talent and human development and retention.

Create an ideal working environment for employees.

Strengthen relationships with existing customers/ clients and attract new and buildrelationships with them for long-term benefit.

Commitment to the development of community and social development.

# أهدافنا

تحقيق النمو المستمر و تنويع مصادر الدخل  
تحقيق التمييز التشغيلي في كافة أعمال المؤسسة  
الدخول في شراكات استراتيجية مع شركات متميزة في كافة أنشطة المقاولات  
تسويق و تطوير هوية و صورة المؤسسة محلياً و خارجياً  
جذب أفضل الكفاءات البشرية و تطويرها و المحافظة عليها  
خلق بيئة عمل مثالية للموظفين  
تعزيز العلاقات مع العملاء الحاليين و جذب عملاء جدد و بناء علاقات إستراتيجية  
طويلة الأمد معهم الالتزام في تطوير المجتمع و التنمية الإجتماعية

# TEAMWORK

Distinguished Brothers concentrates on establishing a professional workforce.

It includes a number of engineers and technicians specialized in the field of mechanical engineering, metal constructions and engineering consultancy, operation and maintenance of plant and equipment to form the specialized team working in the establishment for all projects, contracting work carried out by the establishment along with industrial engineering.

The establishment has gained its reputation in the field of engineering and contracting that is through its vast and varied experiences and expertise in implementing of large projects.

## جماعية العمل

تركز الأخوة المتميرون على تكوين قوى عاملة محترفة حيث تضم عدداً من المهندسين و الفنيين المتخصصين في مجال هندسة الميكانيك و الإنشاءات المعدنية و الإستشارات الهندسية، و تشغيل المعدات و صيانتها و التصنيع ليكون الفريق المتخصص العامل في المؤسسة لكافه المشاريع ورأس هال المقاولات التي تنفذها المؤسسة

و قد إكتسبت المؤسسة سمعتها في المجال الهندسي و المقاولات و ذلك من خلال تجاربها و خبراتها الكبيرة و المتنوعة في تنفيذ المشاريع المتميزة و الكبيرة

## OUR WORK ETHICS

The establishment values its reputation for business ethics. This is well regarded by its clients. The establishment key ethics are:

First: Responsibility That is originally resulting from the fact that it is a establishment which respects and adheres to its agreements and contractual obligations.

Second: Confidence A self-confident establishment who is well confident and strongly capable to work under all conditions.

Third: Quality The establishment adheres to the highest quality standards in all its projects executed under its supervision, its modern capabilities and specialized cadres in project management helped much in this along with its remarkable care for good quality, the establishment cares for providing the highest quality for execution standards.

Fourth: The Time During the operation period of the establishment, the establishment has executed number of vital big projects which were all completed before the specified completion date as the time factor is very important and essential to the establishment managements.

# أخلاقيات العمل

تحرص المؤسسة على التمسك بقوة بأخلاقيات العمل وأصول التمييز ، حيث إستطاعت تكوين سمعة طيبة و قوية لدى عملائها ، و من أهم أخلاقيات و مبادئ العمل التي إعتمدتها المؤسسة و تعمل وفق أصولها و تحرص المؤسسة على الالتزام بها

أولاً : المسؤولية ، و هي التي تعتبر أساساً من كونها مؤسسة تحترم تعاقداتها و تلتزم باتفاقها

ثانياً : الثقة ، المؤسسة واثقة في إمكانياتها و قدرتها على العمل في أصعب الظروف

ثالثاً : النوعية ، حيث تلتزم المؤسسة بأعلى معايير المواصفات و المقاييس في الجودة و النوعية في جميع مشاريعها التي تتولى تنفيذها و الإشراف عليها، و قد ساعدتها في ذلك إمكانياتها

الدينية و كوادرها المتخصصة في إدارة المشاريع مثلما ساعدتها إهتمامها بالجودة و النوعية و الصحة المهنية

رابعاً : الوقت ، خلال فترة عمل المؤسسة نفذت خاللها عدداً من المشاريع الحيوية الكبرى و سلمت في الأوقات المحددة حيث أن عامل الوقت يعتبر عنصراً أساسياً و هاماً بالنسبة لإدارة المؤسسة

# OUR CURRENT AND FUTURE PLAN

The establishment plans to implement many projects during the coming years, in the fields in which it operates, to cover all technical and engineering disciplines, and these plans aim to expand its business and projects and enter into partnerships with a number of international and local companies (as it is now), The company has established branches in the Middle East (Saudi Arabia, Oman, Egypt) and we plan to establish many branches according to the needs of the global market (Middle Eastern and European countries).

And the establishment plans to enter other new fields soon (industry)

## خططنا الحالية و المستقبلية

تخطط المؤسسة لتنفيذ العديد من المشاريع خلال السنوات القادمة و ذلك في المجالات التي تعمل بها بحيث تغطي كافة التخصصات الهندسية و الفنية

و هي الخطط التي تستهدف التوسيع في أعمالها و مشاريعها و الدخول بمشاركات مع عدد من الشركات المحلية و العالمية ( كما هو الان ) ، تم تأسيس أفرع للشركة في الشرق الأوسط ( السعودية ، عمان مصر ) و نخطط لتأسيس أفرع عديدة حسب إحتياجات السوق العالمي ( دول الشرق الأوسط و أوروبا )

و تخطط الشركة في الدخول إلى المجالات الأخرى قريبا ( مجال الصناعة )

# Our Fields of Work

Installation, Operation and Maintenance works for facilities and installations

(Petrochemical and Oil factories, Cement factories - Ports - Buildings)

Supply, Installation, Operation and Maintenance of Industrial equipment

Supply, Installation, Operation and Maintenance of Mechanical and Metal machinery

Supply, Installation, Operation and Maintenance of all types and diameters of metal pipes and necessary tests

Supply, Installation, Operation and Maintenance of Oil equipment and devices

Dismantling factories and hangars and Demolishing facilities by modern and safe methods

Supply, Installation, Operation and Maintenance of all non-metallic materials (All types of Rubber Lining, All types of Carbon Brick, All types of Anti-acid Brick, All types of Refractory Bricks, All types of Conveyer Belts, All types of Plastic Pipes)

Supply, installation, operation and maintenance of Marine equipment, Ship, tanks and Holdings

Commercial agencies

Providing specialized technical manpower with expertise in their field (Operation -Maintenance - Supporting factories and companies with manpower and machinery)

# LIST OF PROJECTS

Projects Name	Projects Description	Clients Name	Location	Date Started	Projects Status
Supply and apply of the pipes and hydrant for the <b>firefighting network</b>	<ul style="list-style-type: none"> <li>- Supply of the seamless pipes, hydrant and paint.</li> <li>- Removing the OLD pipes and hydrants</li> <li>- Fabrication, welding, paint and installation the NEW pipes and hydrant</li> <li>- NDT inspection / RT and hydrostatic test</li> </ul>	sheikh Sabah gas port	Aqaba-Jordan	2019	Completed
Maintenance and painting of chalets	<ul style="list-style-type: none"> <li>- Supply of the paints</li> <li>- Paints of the chalets</li> </ul>	oasis of Ayla	Aqaba-Jordan	2019	Completed
Supply and installation of <b>artificial bumps</b>	<ul style="list-style-type: none"> <li>-Supply of the artificial bumps</li> <li>- Installation the artificial bumps</li> </ul>	Intercontinental Hotel	Aqaba-Jordan	2019	Completed
<ul style="list-style-type: none"> <li>- Maintenance and painting of the JPMC Family apartments</li> <li>- Maintenance and painting of the JPMC department of planning and maintenance</li> </ul>	<ul style="list-style-type: none"> <li>- Supply of the paints</li> <li>- Maintenance of the wall</li> <li>- Paints of the apartments and department.</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2019	Completed
Supplying Forseeling boards with accessories and stainless-steel plates	<ul style="list-style-type: none"> <li>- Supply of the Forseeling boards with accessories</li> <li>- Supply of the stainless-steel plates.</li> </ul>	Intercontinental Hotel	Aqaba-Jordan	2019	Completed
Supply and apply of the fittings and pressure gauges.	<ul style="list-style-type: none"> <li>-Supply of the special fittings and pressure gauges.</li> <li>- Fabrication and installation of the fittings and pressure gauges.</li> <li>- Test, maintenance, calibration and re-test of the gas safety valves different capacity.</li> </ul>	sheikh Sabah gas port	Aqaba-Jordan	2019	Completed

Supply and apply of the fittings and valves to testing all the firefighting hose reel	<ul style="list-style-type: none"> <li>- Supply of the special fittings and valves.</li> <li>- Fabrication and installation of the fittings and valves to testing of the firefighting hose reel.</li> </ul>	sheikh Sabah gas port	Aqaba-Jordan	2019	Completed
Supply of the materials and apply of <b>complete firefighting network system</b> 420 meters according to the specifications of the Jordanian Civil Defense	<ul style="list-style-type: none"> <li>- Supply of the seamless pipes (1,2,4,6 inches), fittings, hydrants, paint...etc.</li> <li>- Apply of the fabrication, welding, installation and paints the NEW firefighting network system.</li> <li>- NDT inspection and hydrostatic test under civil defense and owner supervision.</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2020	Completed
Supply materials and apply of the insulation with special fiber boards for the <b>sulfuric pit milter - hanger erection</b>	<ul style="list-style-type: none"> <li>- Supply of the insulation with special fiber boards.</li> <li>- Removing of the OLD boards.</li> <li>- Sandblasting and paint of the metal materials for the hanger.</li> <li>- Erecting the NEW insulation with special fiber boards for the hanger.</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2020	Completed
Supply and maintenance apply of the pipes for the <b>sewage tank</b>	<ul style="list-style-type: none"> <li>-Supply of the pipes 3 inches, fittings and paint.</li> <li>- Removing the OLD pipe, fabrication, welding, paint and installation the NEW pipe.</li> </ul>	sheikh Sabah gas port	Aqaba-Jordan	2020	Completed
Supply of the special wood and apply of the tables and doors .	<ul style="list-style-type: none"> <li>- Supply of the special wood</li> <li>- Fabrication, assembly, paint and erection the NEW tables and doors</li> </ul>	Intercontinental Hotel	Aqaba-Jordan	2020	Completed

Supply and apply of the <b>SOFT RUBBER LINING</b> and <b>ANTI-ACID BRICKS</b> for acid recycling tanks unit 53 .	<ul style="list-style-type: none"> <li>- Supply of the materials From <b>STEULER-KCH</b> (soft rubber lining and anti-acid bricks).</li> <li>- Supply of the anti-acid paints from <b>INTERNATIONAL</b> Paint Company.</li> <li>- Removing of the OLD pipes , pumps , gratings , handrail , stairs , structure, mixer and two tanks...etc.</li> <li>- Sandblasting the NEW tanks from inside according to rubber lining specifications and requirements and outside.</li> <li>- Painting of the NEW tanks from outside.</li> <li>- Application the NEW soft rubber lining.</li> <li>- Installation and erection the NEW tanks , pipes , pumps , gratings , handrail , stairs , structure and mixer ...etc.</li> <li>- Application the NEW anti-acid bricks.</li> <li>- Testing.</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2021	Completed
--	--	-------------------------	--------------	------	-----------

Supply and apply of the <b>(SOFT &amp; HARD RUBBER LINING AND CARBON BRICKS)</b> for phosphoric boiler separator A.	<ul style="list-style-type: none"> <li>- Supply of the materials From <b>STEULER-KCH</b> (soft &amp; hard rubber lining and carbon bricks).</li> <li>- Removing of the OLD hard &amp; soft rubber lining and carbon bricks.</li> <li>- Internal Sandblasting for the metal inspection.</li> <li>- Metal repair according API standard.</li> <li>- Re-sandblasting according to rubber lining specifications and requirements.</li> <li>- Application of the NEW hard rubber for the inside equipment.</li> <li>- Apply of the VULCANIZATION according <b>STEULER-KCH</b> procedure.</li> <li><b>(Note: Vulcanization by use of hot steam and air, We are the first company to implement this system using air and hot steam in Jordan, and we have achieved great success in applying it and the required hardness).</b></li> <li>- Application the NEW soft rubber lining on the ground.</li> <li>- Application the NEW carbon bricks.</li> <li>- Testing .</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2021	Completed
apply of dismantling and installing hydraulic tubes high pressure (180 bar) for <b>two loading arms</b>	<ul style="list-style-type: none"> <li>- Dismantling of the OLD high-pressure tubes.</li> <li>- Fabrication, pending and installation of the NEW high-pressure tubes.</li> <li>- Hydrostatic test by third party 180 Bar.</li> </ul>	sheikh Sabah gas port	Aqaba-Jordan	2021	Completed
supply (special Paints) and apply the sandblasting and painting of the <b>ammonia tank</b>	<ul style="list-style-type: none"> <li>- Supply of the special paints from <b>JUTON</b></li> <li>- Apply of the sandblasting and paint according of the specification .</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2021	Completed

apply of repair work for the <b>SOFT RUBBER LINING</b> of the phosphoric tank 443	- Inspection and repair of damaged soft rubber lining areas according to repair procedure.	Indo - Jordan company	Ma'an-Jordan	2021	Completed
Supply materials from and apply Inner Wall of the <b>Chimney of Boiler B</b> , Bricks & Cracks Repair	- Supply of the bricks and its materials from <b>STEULER-KCH</b> . - Apply of the cracks and bricks repair according to international third party inspection.	Phosphate Mines Company	Aqaba-Jordan	2021	Completed
Supply materials from and apply Inner Wall of the <b>Chimney of Boiler A</b> , Bricks & Cracks Repair	- Supply of the bricks and its materials from <b>STEULER-KCH</b> . - Apply of the cracks and bricks repair according to international third party inspection.	Phosphate Mines Company	Aqaba-Jordan	2022	Completed
Apply of the soft rubber lining temporary repair for <b>T-7008 Brine Clarifier</b>	- Inspection and repair of damaged soft rubber lining areas according to <b>STEULER-KCH</b> repair procedure.	Jordan Bromine Company	Alghour alsafi-Jordan	2022	Completed
Supply and apply of the <b>(SOFT &amp; HARD RUBBER LINING AND CARBON BRICKS)</b> for phosphoric boiler separator B.	- Supply of the materials From <b>STEULER-KCH</b> (soft & hard rubber lining and carbon bricks). - Removing of the OLD hard & soft rubber lining and carbon bricks. - Internal Sandblasting for the metal inspection. - Metal repair according API standard. - Re-sandblasting according to rubber lining specifications and requirements. - Application of the NEW hard rubber for the inside equipment. - Apply of the VULCANIZATION according <b>STEULER</b> procedure.	Phosphate Mines Company	Aqaba-Jordan	2022	Completed

Supply and apply of the <b>(SOFT &amp; HARD RUBBER LINING AND CARBON BRICKS)</b> for phosphoric boiler separator B.	<p>(Note: Vulcanization by use of hot steam and air, We are the first company to implement this system using air and hot steam in Jordan, and we have achieved great success in applying it and the required hardness).</p> <ul style="list-style-type: none"> <li>- Application the NEW soft rubber lining on the ground.</li> <li>- Application the NEW carbon bricks.</li> <li>- Testing .</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2022	Completed
Apply of the <b>HARD RUBBER LINING</b> for phosphoric primary fluorine absorber lines A&B.	<ul style="list-style-type: none"> <li>- Removing of the OLD hard rubber lining.</li> <li>- Internal Sandblasting for the metal inspection.</li> <li>- Metal repair according API standard.</li> <li>- Re-sandblasting according to rubber lining specifications and requirements.</li> <li>- Application of the NEW hard rubber lining From <b>STEULER-KCH</b> for the inside equipment.</li> <li>- Apply of the VULCANIZATION according STEULER procedure.</li> </ul> <p>(Note: Vulcanization by use of hot steam and air, We are the first company to implement this system using air and hot steam in Jordan, and we have achieved great success in applying it and the required hardness).</p>	Phosphate Mines Company	Aqaba-Jordan	2022	Completed

Supply and apply <b>SOFT RUBBER LINING</b> 4mm for shell and 5mm for the bottom for <b>T-7008 Brine Clarifier</b>	<ul style="list-style-type: none"> <li>- Suppling materials from <b>STEULER-KCH</b> (soft rubber lining 4mm for shell and 5mm for the bottom).</li> <li>- Preparation and fabrication the soft rubber lining according of our modification approved drawings by JBC.</li> <li>- Apply of the soft rubber lining for the tank which has an area of 410 square meters within a record time of four days.</li> </ul>	Jordan Bromine Company	Alghour alsafi-Jordan	2022	Completed
Supply and apply repair of the <b>HARD RUBBER LINING</b> 4mm for tank 7001	<ul style="list-style-type: none"> <li>- Inspection and repair of damaged hard rubber lining areas according to <b>STEULER-KCH</b> repair procedure.</li> </ul>	Jordan Bromine Company	Alghour alsafi-Jordan	2022	Completed
Applying repair, a <b>SOFT RUBBER LINING</b> 4mm for tank 7011	<ul style="list-style-type: none"> <li>- Inspection and repair of damaged soft rubber lining areas according to <b>STEULER-KCH</b> repair procedure.</li> </ul>	Jordan Bromine Company	Alghour alsafi-Jordan	2022	Completed
Applying repair, a <b>SOFT RUBBER LINING</b> 4mm for tank 7032	<ul style="list-style-type: none"> <li>- Inspection and repair of damaged soft rubber lining areas according to <b>STEULER-KCH</b> repair procedure.</li> </ul>	Jordan Bromine Company	Alghour alsafi-Jordan	2022	Completed
Applying repair, a <b>SOFT RUBBER LINING</b> 4mm for water treatment tank	<ul style="list-style-type: none"> <li>- Inspection and repair of damaged soft rubber lining areas according to <b>STEULER-KCH</b> repair procedure.</li> </ul>	Attarat Power	Amman-Jordan	2022	Completed

<b>Apply SOFT RUBBER LINING, CARBON BRICKS and new roof for phosphoric tank 6604B</b>	<p><b>Tank Dia 16.75 meter * Hight 10 meters</b></p> <p><b>* Metal and Mechanical Works:</b></p> <ul style="list-style-type: none"> <li>- Fabrication, assembly and welding the NEW roof according to the drawings and API Standard.</li> <li>- Fabrication, assembly and welding NEW two baffles.</li> <li>- Full NDT inspection (MT, RT, PT).</li> <li>- Erection and full welding for H beams on the NEW roof (Support).</li> <li>- Installing of the scaffold inside and out side of the tank.</li> <li>- Removing all the mechanical equipment and structure on the OLD roof (handrails, stairs, pumps, agitator, gear, support, OLD roof, two baffles... etc.).</li> <li>- Lifting and installing the NEW baffles and roof.</li> <li>- Re-installing all the mechanical equipment and structure on the NEW roof (handrails, stairs, pumps, agitator, gear, support... etc.).</li> <li>- Replacement of the sheet plates on the shell according to quality inspection report as API standard.</li> <li>- Full NDT inspections (RT) for the welding sheet plates on the shell.</li> </ul> <p><b>* Rubber lining, Carbon Bricks , Sandblast and Paints Works:</b></p> <ul style="list-style-type: none"> <li>- Removing the OLD rubber lining and carbon bricks.</li> <li>- Sandblasting for the shell and New roof for metal repair inspection.</li> <li>- Re-sandblasting for the shell and roof according to rubber lining application.</li> <li>- Installing the NEW soft rubber lining (from <b>STEULER-KCH</b>) on the shell , baffles and roof.</li> <li>- Installing the NEW carbon bricks (from <b>STEULER-KCH</b>) on the shell Hight 1 meter from the ground and the nozzles and manhole at this Hight.</li> <li>- Full sandblasting and painting for the shell and roof from out side according to painting procedure and data sheet.</li> <li>- <b>Full testing.</b></li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2023	Completed
---	---	-------------------------	--------------	------	-----------

Supply materials and apply of the <b>HARD RUBBER LINING</b> for phosphoric primary fluorine absorber C.	<ul style="list-style-type: none"> <li>- Supply of the materials From <b>STEULER-KCH</b> (hard rubber lining).</li> <li>- Removing of the OLD hard rubber lining.</li> <li>- Internal Sandblasting for the metal inspection.</li> <li>- Metal repair according API standard.</li> <li>- Re-sandblasting according to rubber lining specifications and requirements.</li> <li>- Application of the NEW hard rubber lining From <b>STEULER-KCH</b> for the inside equipment.</li> <li>- Apply of the VULCANIZATION according <b>STEULER</b> procedure.</li> </ul> <p><b>(Note: Vulcanization by use of hot steam and air, We are the first company to implement this system using air and hot steam in Jordan, and we have achieved great success in applying it and the required hardness).</b></p>	Phosphate Mines Company	Aqaba-Jordan	2023	Completed
Removing the OLD <b>FERTILIZER REACTER</b> and installing the NEW FERTILIZER REACTER at unit 7601.	<ul style="list-style-type: none"> <li>- Fabrication, assembly and welding the NEW FERTILIZER REACTER according to the drawings and API Standard.</li> <li>- Fabrication, assembly and welding NEW four baffles.</li> <li>- Full NDT inspection (MT, RT, PT).</li> <li>- Removing all the mechanical equipment and structure on the OLD FERTILIZER REACTER (handrails, stairs, pumps, agitator, gear, support... etc.).</li> <li>- Removing the OLD FERTILIZER REACTER</li> <li>- Lifting and installing the NEW FERTILIZER REACTER.</li> <li>- Re-installing all the mechanical equipment and structure on the NEW FERTILIZER REACTER (handrails, stairs, pumps, agitator, gear, support... etc.).</li> <li>- Full testing.</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2023	Completed

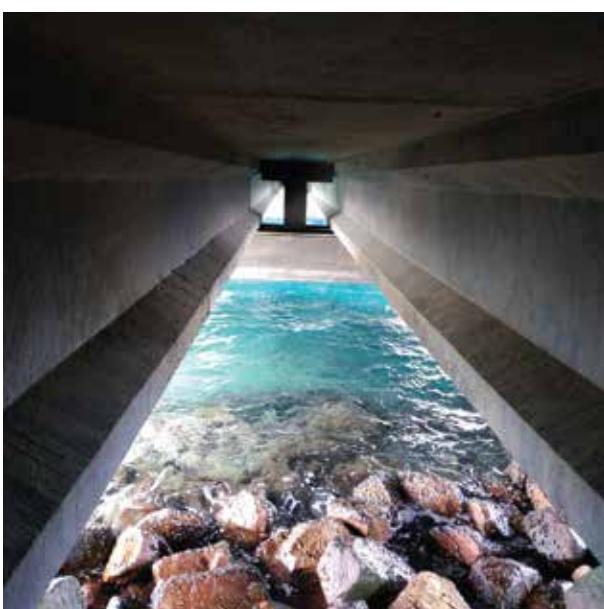

Apply the <b>SOFT RUBBER LINING</b> and <b>CARBON BRICKS</b> for the new <b>FERTILIZER REACTER</b> at unit 7601 as API Standard.	<ul style="list-style-type: none"> <li>- Sandblasting the NEW FERTILIZER REACTER from inside according to rubber lining specifications and requirements.</li> <li>- Application the NEW soft rubber lining from <b>STEULER-KCH..</b></li> <li>- Application the NEW carbon bricks from <b>STEULER-KCH.</b></li> <li>- Sandblasting and Painting of the NEW FERTILIZER REACTER from outside.</li> <li>- Testing.</li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2023	Completed
Supply and Apply the <b>SOFT RUBBER LINING</b> for the Refurbishment & repair rubber application for hot thickener .	<ul style="list-style-type: none"> <li>- Supply and apply of the SOFT RUBBER LINING from <b>STEULER-KCH</b> for hot thickener.</li> </ul>	Arab Potash Company	Alghour alsafi-Jordan	2023	Completed
Rehabilitation of steam boiler 95 tons/hr. (down camber tubes) BOILER 1301 A	<ul style="list-style-type: none"> <li><b>- Dismantling work :</b> <ul style="list-style-type: none"> <li>* Removing of insulation.</li> <li>* Removing of old refractory.</li> <li>* Removing of boiler enclosure.</li> <li>* Removing of down camber tubes.</li> </ul> </li> <li><b>- Tubes fabrication work:</b> <ul style="list-style-type: none"> <li>* Cutting of tubes.</li> <li>* Bending of tubes.</li> </ul> </li> <li><b>- Tubes erection work.</b></li> <li><b>- Inspection &amp; NDT.</b></li> <li><b>- Hydrostatic test.</b></li> <li><b>- Metal fabrication and erection work.</b></li> <li><b>- New refractory installation.</b></li> <li><b>- New insulation erection.</b></li> </ul>	Phosphate Mines Company	Aqaba-Jordan	2023	Completed

<b>Supply and Apply the SOFT RUBBER LINING for the Refurbishment &amp; repair rubber application for hot thickener.</b>	- Supply and apply of the SOFT RUBBER LINING from <b>STEULER-KCH</b> for hot thickener.	Arab Potash Company	Alghour alsafi-Jordan	2023	Completed
<b>HARD RUBBER repair in brine unit tanks</b>	- Inspection and repair of damaged HARD rubber lining areas according to <b>STEULER-KCH</b> repair procedure.	Jordan Bromine Company	Alghour alsafi-Jordan	2024	Completed
<b>Apply the SOFT RUBBER LINING for the Refurbishment &amp; repair rubber application for hot thickener.</b>	- Apply of the SOFT RUBBER LINING from <b>STEULER-KCH</b> for hot thickener.	Arab Potash Company	Alghour alsafi-Jordan	2024	Completed
<b>Provide rubber lining team to work with <b>STEULER-KCH</b> rubber lining supervisors for NEW Four Reactors rubber lining activities at Ma'aden Phosphate Company in Ras Al Khair</b>	- Applying Soft Rubber Lining ( Fabrication and Installation Special Types Soft Rubber) for NEW four Reactors At Ma'aden Phosphate in Ras Al Khair	Ma'aden Phosphate Company	Ras Al Khair – Saudi Arabia	2024	Completed
<b>Apply the SOFT RUBBER LINING for the Refurbishment &amp; repair rubber application for hot thickener.</b>	- Apply of the SOFT RUBBER LINING from <b>STEULER-KCH</b> for hot thickener.	Arab Potash Company	Alghour alsafi-Jordan	2024	Completed

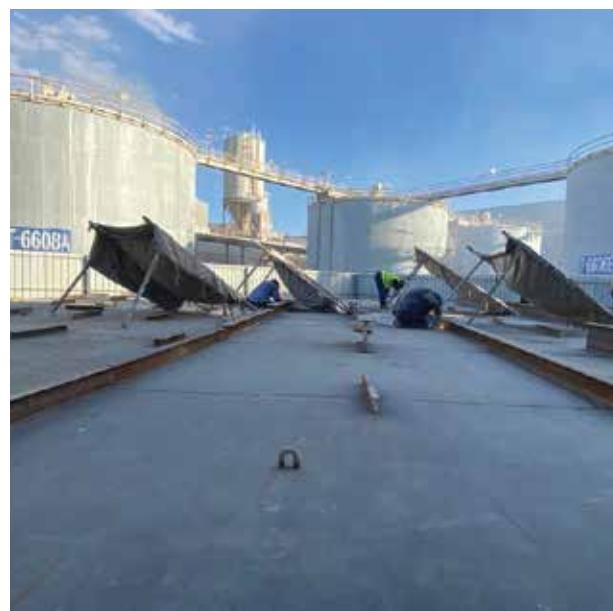

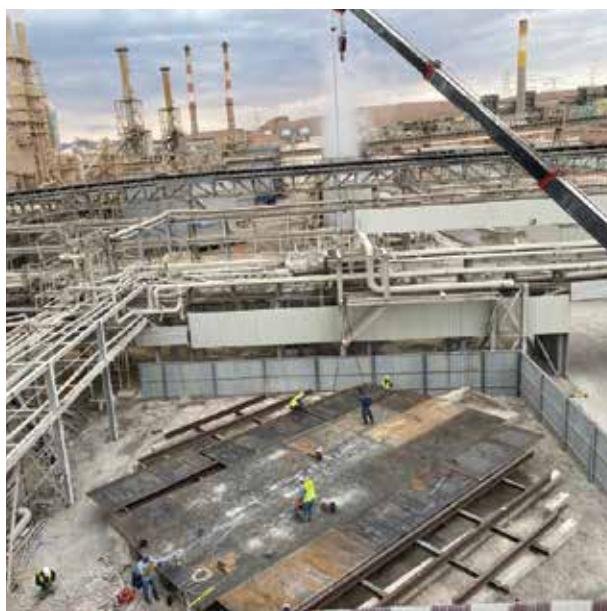

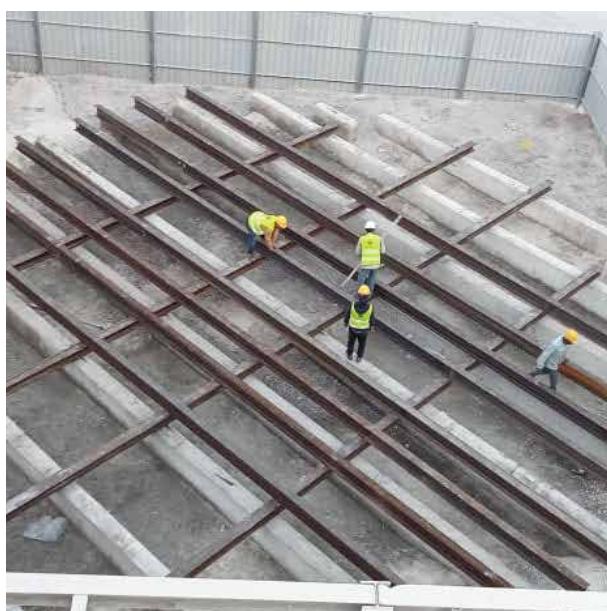

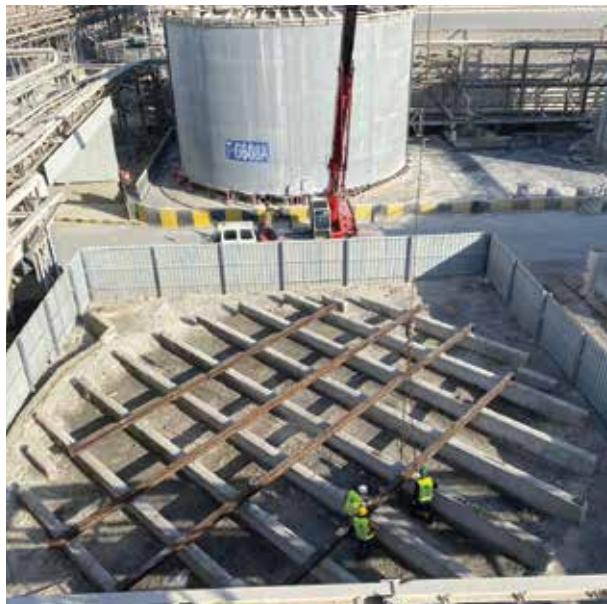

<b>Apply the SOFT RUBBER LINING for the Refurbishment &amp; repair rubber application for CRYSTALLIZER No.02</b>	- Apply of the SOFT RUBBER LINING from STEULER-KCH for CRYSTALLIZER No.02.	Arab Potash Company	Alghour alsafi-Jordan	2025	Completed
<b>Supply and Apply the SOFT RUBBER LINING for the Refurbishment &amp; repair rubber application for hot thickener</b>	- Supply and apply of the SOFT RUBBER LINING from STEULER-KCH for hot thickener.	Arab Potash Company	Alghour alsafi-Jordan	2025	Completed
